

FLEX -- Future Leaders Exchange is more than an exchange student program. The young people are chosen for this program from prominent families in the Balkan States. They come here, not only visit the United States for a period of time as students, but they have a curriculum of learning the culture, government works, and culture of the US as well in order to establish stronger future ties between the countries they represent and the US.

I had the privilege of working with young people from several countries and presenting the course TEAMWORK from my book of that name.

I did this through Buckhorn Falls Academy, whose original curriculum I had established.
